

Small-Scale Poultry Flocks Resources

Table of Contents / Index List

Prepared by James Cochran, Area Specialized Poultry Extension Agent
North Carolina Cooperative Extension Service
P. O. Box 2280, Lumberton, NC 28359; 910-671-3276; James_Cochran@ncsu.edu

This resource of small, backyard, home poultry flock information is *generally* limited to various Land-Grant Universities and Cooperative Extension Services - primarily their Poultry Science Departments - and in conjunction with the United States Department of Agriculture (not intended to be inclusive of all 50 states). A few exceptions are North Carolina Department of Agriculture and Consumer Services' poultry and egg laws and regulations and other USDA supported programs or studies (e.g., SARE). These are mostly free publications and free of copyrights (some require source citing recognition if reproduced). Most are available on Internet websites. This index or Table of Contents, including Internet website (URL) locations and other publication data, is available via the Internet, on CD, or paper. Three-ring notebooks of the complete printed publications (about 320 publications on over 1,300 pages) are also available for a small reproduction fee (\$25 - \$40). A CD containing all the publications is also available. Commercial, individual, and fee-based resources available on Internet websites are not included but may be referenced (list at the end of this index).

Each title is listed only once under the most appropriate section chosen, even though possibly applicable to several topic sections. Within the topic/subject sections, similar publications are generally listed together. The following format is used:

Index

Publication Name/Title: any numbers associated with the fact sheet, publication, guide, leaflet, et cetera; and any known date of publication, printing, and/or Internet web posting.

University Extension Source: The State of the Land-Grant University.

Number of Pages: Actual number for PDF, estimated for HTML files (dependent upon your web browser and print settings).

Internet Website (URL) Address(s): Multiple URLs listed if available and known. File format noted by Adobe Acrobat (e.g., “.pdf”), HTML, PowerPoint presentation, or Excel Spreadsheet.

Distributed in furtherance of the Acts of Congress of May 8 and June 30, 1914. North Carolina State University and North Carolina A&T State University commit themselves to positive action to secure equal opportunity regardless of race, color, creed, national origin, religion, sex, age, or disability. In addition, the two Universities welcome all persons without regard to sexual orientation. North Carolina State University, North Carolina A&T State University, U.S. Department of Agriculture, and local governments cooperating.

The primary purpose and intent of this resource is derived from personal experience of the compiler and Retail Farm/Feed Supply Store Advisory Committee members realizing the valued use of a convenient source of information easily available for assisting customers. The resource list may be of valuable interest to the backyard poultry flock hobby enthusiast, FFA advisors, and 4-H club leaders.

Special thanks to the agricultural secretary at the Extension Center in Robeson County, Denese Prevatte, for formatting this publication, posting and maintenance on the website, and for future updates and revisions.

You will need the [Acrobat Reader](#) to view some of these files; it's a free download.
