**Must have proof of Rabies vaccination!**
**TIPS**

Always keep a copy of your animal’s health records readily available!

Properly identify all pet medications and special needs food with your pet’s name and your name and any special instructions.

Animals cannot go long without water. Make sure animals have access to water at all times or as frequently as possible.

Keep animals up to date on vaccinations so that in the event of an emergency, they can be boarded at other veterinary offices and travel with you.
